Investment Objective

First Trust Tactical Bond Index ETF seeks to replicate, to the extent possible, the performance of a total return fixed income index, net of expenses. Currently, the First Trust ETF seeks to replicate the performance of the NASDAQ IBIS Canadian Preservation Index CAD TRSM (the "Index"), net of expenses. The First Trust ETF will invest in and hold the constituent securities of the Index in the same proportion as they are reflected in the Index. The Index will consist of an equal weighted basket of TSX-listed ETFs that provide exposure to global fixed income securities which may include short-term and long-term Canadian government bonds, Canadian real return bonds, preferred shares, convertible, corporate, high yield, floating-rate, and developed and emerging market bonds.

Key Features

- Single ticket solution to the largest and most liquid fixed income ETFs in Canada
- The index adjusts allocations on an equal weight basis to the fixed income markets that are expected to perform better at rebalance
- Designed to do well across a variety of credit and interest rate environments
- Low management fee of 0.50%.
- Monthly income stream

Risk rating

First Trust Portfolios Canada has rated the volatility of this ETF as **low**. This rating is based on how much the ETF's returns have changed from year to year. It doesn't tell you how volatile the ETF will be in the future. The rating can change over time. An ETF with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the ETF's returns, see the Risk section of the ETF's prospectus.
